Martin Myhalyna

JUNIOR FRONT END TRAINEE

📞 +420608623254 ✉ martinmyhalyna@gmail.com 🔗 https://github.com/omnimrt 👤 Portfolio web 📍 Prague, Czech Republic

PROJECT EXPERIENCE

Phonebook App

📅 04/2024 - 05/2024 📍 Prague (Remote)

🔗 https://goit-react-hw-08-pink-rho.vercel.app/
🔗 GitHub Link

Dynamic Phonebook app with React, Redux, and React Router, allowing users to efficiently manage contacts. Implemented contact management, user authentication, and seamless navigation for an enhanced user experience.

Tech stack: HTML5, CSS3, React, Redux, React Router, Git, GitHub, API, Figma

Energy Flow - Fitness App

📅 02/2024 - 02/2024 📍 Prague (Remote)

🔗 https://iirofessor-x.github.io/project_js_CodeCrafters/
🔗 GitHub Link

Interactive fitness web application which allows user to create their own training plan by combining favourite exercises. On this project I participated as developer implementing functionality for scroll up according to task requirements and layout.

Tech stack: HTML5, CSS3, JavaScript, Git, GitHub, API, Figma

Focus.Frame School of Photography - Landing page

📅 11/2023 - 11/2023 📍 Prague (Remote)

🔗 https://omnimrt.github.io/made-it-to-17-project/
🔗 GitHub Link

Landing page project where I acted as the team lead, was built using HTML and CSS along with tools such as Git and Figma. This was my first group project where beside diving deep into technical implementation of the project I learned that the communication and streamlined processes are critical.

Tech stack: HTML5, CSS3, Git, GitHub, Figma

WORK EXPERIENCE

Technical Product Engineer

FF Group

📅 08/2024 - Present 📍 Prague, Czech Republic

- Manage and configure a proprietary data management platform, including installation, maintenance, and integration as a plugin to support business logic and data workflows.
- Coordinate tasks and oversee business logic fields in Zoho Projects, ensuring seamless project tracking and alignment with team objectives across cross-functional teams (frontend / backend).
- Creating dashboard mockups in Figma ensuring its functionality is aligning with the customers requirements.
- Develop and implement business logic workflows using an internal low-code tool, optimizing data processes and contributing to the efficiency of internal operations.

IT Service Desk Specialist

Kooperativa a.s.

📅 03/2024 - 08/2024 📍 Prague, Czech Republic

- Provide first-line technical support to internal users via phone, tickets or email
- Escalate unresolved issues to the appropriate IT teams and follow up to ensure resolution
- Collaborate with other IT teams to identify and implement improvements to IT systems and processes

HR Senior Benefits Administrator

Amazon Inc.

📅 12/2016 - 09/2022 📍 Prague, Czech Republic

- Resolved issues and inquiries from plan participants regarding health and welfare benefits and deductions through telephone, email and in-person interactions
- Trained new team members in policies and procedures and offered insight into best ways to manage job tasks and duties.

SUMMARY

Dedicated and goal-driven junior front end trainee with a solid foundation in web development, specializing in API integrations and system interoperability. Proficient in HTML, CSS, JavaScript, TypeScript, React, and Node.js, with practical experience in REST APIs, WebSocket, and Git. Detail-oriented, proactive, and committed to delivering scalable solutions while thriving in collaborative team environments.
